

The NEXT Generation RACE - TRACK - STREET Batteries

LithiumNEXT RACE60	Value
Model	LiNEXT20-R60
Weight	approx. 3.5kg
Dimensions l x w x h (mm)	168x125x175
Capacity	20Ah nominal
Application Voltage range	11.5V to 15.2V
Nominal voltage	13.2V
Deep discharge protection	8.5V
Overvoltage protection	15.4V
Cell technology	SDL 4S5P
Cycle life	>3,000 @90% DoD
End-of-charge voltage	14.6V
Trickle charge voltage	13.8V
Recommended max. charging current	10A
Max. Charging current	80A
Discharge current duration	100A
Max. Discharge current (≤ 20 sec.)	900A
BMS Battery Management System	integrated
Protection class	IP65
Certificates	CE, UN38.3
Application Temperature range	0°C to +55°C
